

Education Support Professionals

Nearly four of every 10 public school employees are ESPs who work together with teachers and administrators to keep our schools running and protect every student's right to a quality public education.

TEA supports ESPs by:

- Organizing to win better pay, benefits, and working conditions
- Providing effective employment-related representation
- Advocating for quality professional development opportunities
- Ensuring safe and clean schools
- Developing effective local and state leaders
- Promoting public education and public school employees in state legislature
- Defending against outsourcing of work to private, for-profit companies
- Keeping you informed through electronic and print media
- Providing access to exclusive, member-only financial services and insurance benefits
- Offering on the job liability insurance
