

TEA Supports Higher Ed

The Tennessee Education Association is the largest and strongest advocate for public education in Tennessee. Together, TEA's tens of thousands of members work to ensure every student receives a quality education

TEA has led the fight to protect our students, our schools and our profession. Together we've tackled retirement issues, affordable health insurance, and the professional working conditions that matter most to you. The association is also the driving force behind the demands for better funding for public schools and salary increases for Tennessee educators.

TEA protects employment rights, assists with grievances, helps professors improve their salaries and benefits.

TEA is also one of the top providers of quality professional development opportunities in the state.

TEA Supports Higher Ed

TEA Member Benefits include discounts on travel, insurance and thousands of retailers nationwide, including some of your favorite local shops and restaurants. These exclusive discounts can easily equal the cost of association membership.

Like you, TEA is committed to ensuring every child in Tennessee has a well-trained, qualified educator in their classroom. That is why we work closely with college students studying to become educators.

As a higher education instructor, being a TEA member just makes sense for those who are concerned about their jobs and their students. When we stand together, we can improve public education statewide. It is time to join your colleagues statewide in becoming a TEA member.
