# PROFILE AND RANKINGS OF TENNESSEE SCHOOLS

## Overall TVAAS Composite Scores

The Tennessee Value-Added Assessment System (TVAAS) is a statistical analysis used to measure the impact of teachers, schools, and districts on student academic growth from year to year. The model is based on a scale of 1-5 with scores of 4 or 5 showing the district is exceeding the expected growth, a 3 indicates the district is meeting expected student growth and scores of 1 or 2 indicate the district is not meeting expected growth expectations. Systems are ranked highest to lowest.

## TVAAS Literacy and Numeracy Scores

The Tennessee Value-Added Assessment System (TVAAS) is a statistical analysis used to measure the impact of teachers, schools, and districts on student academic growth from year to year. The model is based on a scale of 1-5 with scores of 4 or 5 showing the district is exceeding the expected growth, a 3 indicates the district is meeting expected student growth and scores of 1 or 2 indicate the district is not meeting expected growth expectations. Systems are ranked highest to lowest.

## Achievement: Grades 3-8 TCAP Math

From the Tennessee Department of Education: "The Tennessee Comprehensive Assessment Program, or TCAP, is a set of statewide assessments given in Tennessee to measure students' skills and progress. Students in grades 3-8 take the Achievement Test, and high school students take End of Course exams for various subjects. Student results are categorized as below basic, basic, proficient or advanced. Students that are proficient or advanced are commonly considered to be at or above grade level. Subjects with fewer than 10 valid tests and/or subjects with at least 99 percent or less than 1 percent of students scoring in any one proficiency category are suppressed in accordance with federal privacy laws." Districts are ranked on the percentage of students scoring proficient and advanced.

# PROFILE AND RANKINGS OF TENNESSEE SCHOOLS

## Achievement: Grades 9-12 End of Course Algebra I

From the Tennessee Department of Education: "The Tennessee Comprehensive Assessment Program, or TCAP, is a set of statewide assessments given in Tennessee to measure students' skills and progress. Students in grades 3-8 take the Achievement Test, and high school students take End of Course exams for various subjects. Student results are categorized as below basic, basic, proficient or advanced. Students that are proficient or advanced are commonly considered to be at or above grade level. Subjects with fewer than 10 valid tests and/or subjects with at least 99 percent or less than 1 percent of students scoring in any one proficiency category are suppressed in accordance with federal privacy laws." Districts are ranked on percentage of students scoring proficient or advanced.

# PROFILE AND RANKINGS OF TENNESSEE SCHOOLS

## Achievement: Grades 9-12 End of Course Algebra II

From the Tennessee Department of Education: "The Tennessee Comprehensive Assessment Program, or TCAP, is a set of statewide assessments given in Tennessee to measure students' skills and progress. Students in grades 3-8 take the Achievement Test, and high school students take End of Course exams for various subjects. Student results are categorized as below basic, basic, proficient or advanced. Students that are proficient or advanced are commonly considered to be at or above grade level. Subjects with fewer than 10 valid tests and/or subjects with at least 99 percent or less than 1 percent of students scoring in any one proficiency category are suppressed in accordance with federal privacy laws." Districts are ranked on percentage of students scoring proficient or advanced.

# PROFILE AND RANKINGS OF TENNESSEE SCHOOLS

## Achievement: Grades 9-12 End of Course English II

From the Tennessee Department of Education: "The Tennessee Comprehensive Assessment Program, or TCAP, is a set of statewide assessments given in Tennessee to measure students' skills and progress. Students in grades 3-8 take the Achievement Test, and high school students take End of Course exams for various subjects. Student results are categorized as below basic, basic, proficient or advanced. Students that are proficient or advanced are commonly considered to be at or above grade level. Subjects with fewer than 10 valid tests and/or subjects with at least 99 percent or less than 1 percent of students scoring in any one proficiency category are suppressed in accordance with federal privacy laws." Districts are ranked on percentage of students scoring proficient or advanced.
